The installation selection of photovoltaic ground brackets is mainly based on factors such as the fixing method of the bracket, terrain requirements, material selection, and the weather resistance, strength, and stiffness of the bracket. First, there are many fixing methods, such as pile foundation method (direct burial method), concrete block weight method, pre-embedded method, ground ...

Contemporary earthquake proof architecture relies on high tensile cross bracing as well as isolated foundations to meet international standards. Earthquakes in China

An earthquake resistant bracket is a bracket with earthquake resistance function, which is installed as an earthquake resistant measure on mechanical and electrical pipeline equipment. ...
