

Anwei Power Grid written test questions

What is a national grid interview?

It's usually comprised of three competency-based questions that will probe your personal work style and your personality. This allows the recruiters and hiring managers at National Grid to see how you might fare as part of the team. You can record your responses to the question in a time and place that suits you.

How do I get to the National Grid assessment centre?

To reach the National Grid assessment centre you must complete an online application, a situational judgement test and a preliminary interview. The National Grid assessment centre is based at the Warwick conference centre and lasts for two days. The first day will be relaxed and will not feature many exercises.

How long does a national grid assessment take?

Although this will vary depending on the role, most National Grid assessment centers start with candidates sharing their pre-prepared presentation and taking questions for up to 90 minutes. The presentation subject tends to be a case study that's relevant to the role you're hoping to acquire.

How do I prepare for the National Grid assessment?

Doing well on the National Grid assessment is crucial to your success as a candidate. In order to do well, it is essential to do as much preparation as possible. One of the best ways to prepare for the assessments is to take online practice tests and take advantage of other online resources.

What tests does National Grid take?

These exams will assess your basic ability to do the job and your fit within the company. National Grid's assessments are timed and provided by SHL. Numerical Reasoning Test: The numerical reasoning test is a psychometric exam that will assess your ability to analyze basic numerical information.
