

# Camera solar panel bracket installation

How do I install and Configure my Blink solar panel mount?

The following easy steps explain how to install and configure your Blink Solar Panel Mount. You must first have a fully functional Blink Outdoor (3rd Gen) camera set up in your Blink account, before attaching the camera to the mount. In addition, the lithium batteries must remain in your outdoor camera before connecting it to the solar panel mount.

How to install a solar panel bracket?

To install a solar panel bracket, apply adhesive to the upper side of the bracket (this is where the solar panel will be positioned). Position and press firmly the side bracket along the side of the solar panel and repeat this process with the other side bracket. Allow the adhesive to dry as per the product specifications.

What is a solar panel mounting bracket?

Refer to section "Installation handover" This solar panel mounting bracket is a robust and versatile galvanised mild steel bracket suitable for mounting a variety of solar panels between 20W and 150W in size, against a wall or on a post.

Can I use a blink outdoor camera with a solar panel mount?

You must first have a fully functional Blink Outdoor (3rd Gen) camera set up in your Blink account, before attaching the camera to the mount. In addition, the lithium batteries must remain in your outdoor camera before connecting it to the solar panel mount. Other Blink outdoor cameras (Outdoor 4, XT or XT2) are not supported.

How many mounting brackets does a solar panel need?

Each solar panel typically requires 1 or 2 mounting brackets. For instance, a set of 15 solar panels might require between 20 and 30 mounting brackets. Where are solar panel rails sold?

What are solar panel mounting brackets in the Philippines?

As the name suggests, they are used for the installation of solar panels. Solar panel mounting brackets in the Philippines vary in size, shape, and durability. These brackets are secured on whatever surface, usually rooftops, the solar panels are being installed to. Then the solar panels are attached to the mounting brackets.
