

Contract for renting a house and installing photovoltaic panels

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Can a rent-a-roof company install solar panels?

Where an installation is owned by a rent-a-roof company, we would expect there to be a signed 'agreement' between the relevant parties, i.e. the homeowner and the rent-a-roof company, such as a lease agreement, with the homeowner agreeing to rent their roof to the company for the purposes of installing solar PV panels.

Do you need a lease for PV panels on a residential property?

This guidance provides information for photovoltaic (PV) panel providers and the public about lenders' minimum requirements with respect to consenting to a lease of roof space for the installation of PV panels ('the panels') on the roof of a residential property.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

Can I buy a house with leased solar panels?

It is possible to buy a house with leased solar panels, although more complex than buying a home without them. You should take the following points into account: Some mortgage lenders take issue with a solar company having tenant rights over part of the roof. The installing company has MCS accreditation. The installation is approved and insured.

How do I end a solar panel lease in the UK?

To end a solar panel lease in the UK, you must make some form of payment to the solar company. The lease agreement will outline the conditions and formula for wrapping up the contract, but there are three broad options: Under a buyout, you pay the outstanding balance on the lease agreement.

The details of the solar energy contract will differ depending upon how you intend to pay for your solar panel installation.
