And when cycling for long periods of time below 11-13kph, you'll need to look to other charging solutions (solar or power banks are usually best for off-road bikepacking). Most dynamo USB chargers use chipsets with a current ...

I bought a very cheap Aldi solar charger a couple of years ago and it still works. I leave it in the shed window and it charges up. I used it to charge my phone yesterday. It only has a power of 2100Amhz and I have just bought an Anker power bank with a power of 20100Amhz which will cover all my power needs.
