Which hair clippers are the best in the UK?

This is a long article, so if you are in a hurry, then the best buyer rated hair clipper available on the UK market right now is the Remington Quick Cut Hair Clippers, available at Amazon and other stores. Just below we have made a table of contents.

Are cordless hair clippers worth it?

Thanks to improvements in battery tech and more powerful motors, times have changed and, according to Tucker, cordless hair clippers are the best choice for most. "They may cost a little more," he says, "but it will be well worth it."

Which Clippers get through long hair the easiest?

Most readers meant which clippers would get through long hair the easiest, so we will answer that one first. The Remington Quick Cut Hair Clippers (no 1 on our list) are cordless, and they can easily deal with long hair. Ideally, really long hair should be cut with scissors, mainly so as the hair is a great deal easier to see.

Are hair clippers good quality?

In this article we have produced a top 12 list. We did this using actual buyer satisfaction ratings and reviews. You will not find any clipper on that list with a buyer rating of less than 80%, or at least 4 out of 5 stars. That means they are all good to excellent quality. We have then done detailed reviews on the top 12 hair clippers.

Should you buy a Philips hair clipper?

If you're going to trust your hair in the hands of an at-home cut, then it makes sense to spend a little extra on some impeccably well-executed clippers. With 400 length settings and a delightfully ergonomic build, Philips has done well to take a good deal of the fear factor out of being your own barber.

Why do you need a hair clipper?

There are plenty of reasons to invest in a set of hair clippers. Have them in your grooming armoury and you'll never have unsightly neck hair, and with only basic skills and a little practice, you'll also be able to maintain your existing cut for longer - extending the time between barber visits and saving time and money in the process.
