

# How long can the self-service locker store

What are automated lockers & self service lockers?

Automated lockers or self service lockers are the masters in the world of storage and convenience. They're not for one industry; they seamlessly fit into any place where package management or storage is essential. Here's are the industries that are experiencing the magic of package locker systems:

How do self-service lockers work?

Our self-service lockers operate fully autonomously. For example, do you want to rent out lockers for people to store their belongings? Then they can easily start, end and pay for the rental themselves. And they can also easily report any problem if they need to. Does this solution suit you?

Why should you choose urban locker self storage?

At Urban Locker Self Storage we believe that we offer the best combination of service and security to make you feel at home in our central London storage facility. All of our storage units are individually alarmed and protected by round the clock CCTV and access control systems. Only authorised customers and staff can access our storage facilities.

Are your lockers fully autonomous?

Imagine if your lockers were fully autonomous. With self-service lockers, this is not a distant dream, but a reality. Our lockers operate completely autonomously, including the payment system, for a whole range of different applications. Find out everything you need to know below! What is it?

Are smart lockers a sustainable solution to workplace storage?

A more flexible and sustainable approach to workplace storage. By optimizing resource usage and reducing waste, smart lockers play a key role in fostering environmentally conscious operations within organizations. Electronic lockers offer agile solutions that can swiftly accommodate evolving workplace demands.

Do smart lockers pay back in 6 months?

Smart lockers always pay back in less than 6 months as you need 40% less lockers and save 90% facility management time. When it comes to the cost of smart lockers, it's important to note that there isn't a one-size-fits-all answer.
