

# How to disassemble the photovoltaic panel bracket

How do you disconnect a solar panel?

Before unplugging any connections, make sure that your solar panel system has been turned off and disconnected from the grid. To begin with, locate where your panels are connected to each other and disconnect them by removing any connectors or plugs. Then move on to disconnecting the wiring between each panel and its inverter box (if applicable).

How do I install a solar photovoltaic system?

The most efficient way to install a solar photovoltaic system is by using a Heliomotion. Simply because a Heliomotion has innovative sun-tracking technology that enables solar panels to track the sun throughout the day and year. The possibilities for mounting solar are endless.
