Is the solar shed a scam

I have a large shed, so I bought 2 solar lights, and they are fantastic. I was really surprised that you don't have to have the Sun shining for the lights to work! I would recommend these solar lights to anyone who wants to brighten up their shed or garage. Great product, a well earned 5 stars. Thank you ðY" By Malc Campbell-Scott on Oct 26 ...

Aootek Solar Outdoor Light. Pros: Brighter than the Hmcity light, long lasting, good motion sensor Cons: Pricier, too big to be mounted to a 2×4 or 4×4 Best for: Outdoor motion sensor/security light Review: The Aootek light is another great outdoor shed light. It wasn't my favorite simply because it's pricier and because its size limits your mounting options just a tad.

The hybrid solar and green living system offers a unique blend of technology and nature. A part of the shed roof has photovoltaic panels installed, while the rest incorporates a living green roof. This harmonious solution maximizes the use of roof space and provides significant benefits.

Wire the shed with lights and receptacles (if adding). Install the solar panels on the roof or in the yard. Drill a hole and add a waterproof connector called an entry panel, which protects the cables between the solar panel and ...

Be aware of solar energy scams - everything from scammers pretending to be affiliated with the government or utility company to businesses misrepresenting the cost of improvements, savings, and financing options.
