

Manshi Solar Power Wholesale Department

What is solar wholesale selling?

Most importantly, wholesale selling helps to bring the cost of solar down, which accelerates the advancement of solar worldwide. This guide will be frequently updated with additional information about wholesale selling for solar suppliers, distributors and brokers.

Do solar wholesalers offer Value-Added Services?

Many solar wholesalers and distributors have evolved their business models to offer value-added services. Some provide storage space to contractors and will drop ship equipment to project worksites. Some offer lines of credit. And some buy back excess and used equipment as long as the material has resale value.

How do Solar Contractors buy & sell solar equipment?

Rather, they tend to acquire goods from a variety of supplier relationships like manufacturers, other wholesalers, liquidators, auction houses, and even developers, EPCs and contractors with excess and second-hand material. They may work with solar equipment brokers to buy and sell goods as well.

Should you join a wholesale solar B2B exchange?

One of the best ways to keep a pulse on the market is to join a wholesale solar B2B exchange.
