

Multifunctional solar instant heater bracket

What is a Solaire Vitra heater / convector radiator?

SolAire Vitra smart electric panel heater/convector radiator with WiFi control, thermostat and 24 hour 7 day timer. Modern slimline design with a smooth glass front panel. The Vitra is wall mounted or portable - leg and wall brackets are included. This is a plug in heater - a 3 pin UK plug is attached to the cable.

What is a caldo electric panel heater?

The Caldo WIFI electric panel heater is a smart and efficient way to heat your home. Fitted with the latest technology including timer, digital thermostat, WIFI connectivity and smart speaker integration. Making you're home smarter by giving you control. This makes the heater fully compliant with Eco design Lot20 regulations.

How much power does a caldo heater use?

Available in power outputs including 500W, 750W, 1000W, 1500W, 2000W & 2500W, the Caldo is suitable for small, medium and large room sizes. This heater is supplied with a wall mounting kit. For portable use, leg brackets are available to buy separately.

How does a caldo heater work?

With the Smart life App, you can integrate the heater with your Google Home or Amazon Alexa. Providing feature's such as voice control. You can simply say phrases such as "turn heating on" and "set heater to 20 degrees". This allows you to control the heating without lifting a finger. The Caldo has a control panel which you can use without WiFi.

What is a splash proof heater - IPX4 rated?

Splash Proof - IPX4 Rated (suitable for bathrooms). It uses the convection process to warm a room. There is an electric element inside, which heats up air, enabling it to flow into the heater through the bottom vent and rise up out of the top vent to circulate throughout a room.
