

Official inquiry of LONGi photovoltaic panels

Who are LONGi Solar Technologie GmbH & Longi Green Energy Technology?

Both LONGi Solar Technologie GmbH and LONGi Green Energy Technology Co.,Ltd. are active in the development,manufacturing and servicing of solar wafers,cells and modules. The second investigated consortium is composed of Shanghai Electric UK Co. Ltd. and Shanghai Electric Hong Kong International Engineering Co. Ltd.

Who are Enevo group & LONGi Solar Technologie?

The first of the two groups under investigation includes Romanian engineering firmEnevo Group and Longi Solar Technologie GmbH,which is the German subsidiary of Chinese solar module maker Longi.

When will the Commission take a decision about Enevo & LONGi Solar?

Both consortia submitted a complete notification on 4 March 2024. The Commission now has 110 working daysas of that date to take a decision. The opening of an in-depth investigation does not prejudice the outcome of the investigation. The first investigated consortium is composed of the ENEVO Group and LONGi Solar Technologie GmbH.

Did Longi and Shanghai Electric violate EU rules on foreign subsidies?

The European authorities are trying to determine whether two consortia - including subsidiaries of Longi and Shanghai Electric - violated the new EU rules on foreign subsidies when they participated in a procurement process in Romania for a 110 MW solar farm. The European Commission is expected to make a final decision within 110 working days.

Who is bidding for a solar park in Romania?

The probe will focus on two consortiums bidding for the development of a solar park in Romania,part-financed by EU funds. One includes the German subsidiary of Longi Green Energy Technologie,one of the world's largest manufacturers of photovoltaic cells and solar panels.

Why did Longi Green Energy lose a billion yuan in 2024?

Longi Green Energy Technology said on July 9 that it expects a net loss of up to 5.5 billion yuan (\$756 million) for the first half of 2024. The solar company blamed its increased investments,as well as a mismatch between supply and demand. For more insights like these,click here to try Breakingviews for free.

LONGi always stands at the forefront of solar photovoltaic technology, focusing on bringing better and sustainable value innovation to customers. Every time upgrade our technology, we lead the technological transformation of the photovoltaic industry and promote global energy transformation and green development.

Eco-friendly PV power plants are grid-friendly, environmentally-friendly, and economic benefits-friendly. The

Official inquiry of LONGi photovoltaic panels

featured applications are divided into large-scale PV power plants on mostly flat terrain, PV power plants on mountainous terrain, PV power plants on more complex mountainous terrain, and large-scale PV power plants floating on water (floatovoltaics).

The European Commission said Wednesday it's investigating ENEVO Group including LONGi Solar Technologie GmbH, a unit of the world's second most valuable solar ...

LONGi Solar was founded in 2000 and is based in China, but they have offices all over the world with a headquarters in the U.S. LONGi has been in the solar photovoltaic business for over 20 years, which is important as you can trust that they will be in business over the lifetime of your panels.. Additionally, LONGi was among the 10 best solar panels of 2024 according to our ...

Baku, Azerbaijan, November 15th, 2024 - "As advancements in photovoltaic technology continue and costs steadily decline, the solar industry is increasingly overcoming the challenges posed by the intermittency and discontinuity of solar power in certain regions. This positions the sector to play a pivotal role in accelerating the global shift toward energy equity."

Among them, LONGi is the first Chinese solar photovoltaic company that has obtained the official validation. The SBTi is a partnership between CDP, the United Nations Global Compact (UNGC), World Resources ...

As a leading solar energy technology company in the world, LONGi believes that photovoltaic technology is a powerful weapon to deal with climate change and plays a key role in achieving the 2030 sustainable development goals of the United Nations. LONGi is committed to becoming an advocate, practitioner and leader of global clean energy sustainable development, and ...

You can check the names of authorized LONGi dealers here. Contact Us. LONGi offers professional consulting services, professional knowledge of PV power plant and charging station solutions, and full life cycle O& M capabilities. Contact Us. ...

April 16, 2018, Kuching, Sarawak. LONGi Solar (Kuching) SDN BHD, a wholly-owned subsidiary of LONGi Green Energy Technology Co., Ltd., celebrated the official launch of its fully vertical integrated monocrystalline wafer, cell and module facilities in Kuching, Sarawak, Malaysia.. Datuk Patinggi (Dr) Abang Haji Abdul Rahman Zohari bin Tun Datuk Abang Haji Openg, Chief ...

Baku, Azerbaijan - From November 11th to 22nd, the 29th Conference of the Parties (COP29) to the United Nations Framework Convention on Climate Change took place in Baku, the capital of Azerbaijan. LONGi, in conjunction with the International Union for Conservation of Nature (IUCN), released the "Initiative of Advancing Climate Action and Biodiversity Conservation with ...

Xi'an LONGi Clean Energy Co., Ltd., a subsidiary of LONGi, was officially established, marking LONGi's

Official inquiry of LONGi photovoltaic panels

formal entry into the building and EPC business of solar power stations. 2015 Xi'an LONGi New Energy Co., Ltd. (formerly LERRI Solar Energy Co., Ltd.) was registered, and the company began to develop the distributed solar business.

In the recent paper titled "Silicon heterojunction back contact solar cells by laser patterning", LONGi Green Energy Technology Co., Ltd. (referred to as "LONGi") reported for the first time that crystalline silicon solar cells have broken the 27% efficiency barrier, marking a significant advancement in photovoltaic (PV) technology. This milestone not only highlights the ...

Xi'an (China) 24 th June -- In the context of rapid global advancements in photovoltaic technology, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi ") has become a star in SNEC PV+ 2024 and Intersolar Europe 2024 held in this month, due to its innovative BC (Back Contact) cell technology and a series of high-performance products.

The investigation will focus on two consortiums bidding to develop a solar park in Romania, part-financed by EU funds, one of which includes the German subsidiary of China's Longi Green Energy...

April 16, 2018, Kuching, Sarawak. LONGi Solar (Kuching) SDN BHD, a wholly-owned subsidiary of LONGi Green Energy Technology Co., Ltd., celebrated the official launch of its fully vertical integrated monocrystalline wafer, cell and ...

Since 2015, LONGi has located its operations in Kuching, Malaysia, to utilize the abundant local hydropower resources to provide clean energy for its facilities. LONGi plans to integrate solar power plants with pumped storage in areas that feature significant elevation differences and abundant sunlight, creating an industrial model for using solar.

Shanghai,China- June 14 th - On June 14th, at the highly anticipated 2024 SNEC Expo in Shanghai, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi ") announced a major breakthrough in the development of its silicon-perovskite tandem solar cells.. According to authoritative certification by the European Solar Test Installation ...

About PV CYCLE. PV CYCLE, based in Belgium, has been operational since 2007. It is the first non-profit organization specializing in the management of waste from photovoltaic panels and other products related to ...

LONGi's customized residential solutions simplify the sometimes complicated design and installation of PV systems on nonstandard rooftops. LONGi's professional design teams match the perfect module for any rooftop, thus maximizing value for the customer. ... environmentally-friendly rooftop solar systems that greatly reduce customer energy ...

Official inquiry of LONGi photovoltaic panels

In 2020, China announced that it will strive to bring its carbon emissions to a peak before 2030 and become carbon-neutral before 2060. It noted that China will further transform its energy consumption structure by promoting the wider use of clean and renewable energy and build a New Energy-dominated Power System, as PV power playing an ...

"As advancements in photovoltaic technology continue and costs steadily decline, the solar industry is increasingly overcoming the challenges posed by the intermittency ...

The predicament of solar panel giant Longi Green Energy Technology suggests China risks repeating an investment boom and bust cycle that culminated in the European Union and the United States...

The congress featured 25 AQM Award groups in three categories: PV Modules, Solar Energy Storage Systems, and PV Power Plants. Shanghai, China, September 3rd - The 10th All Quality Matters (AQM) Solar & ESS Congress, organized by the TÜV Rheinland Group, took place in Shanghai on September 3, 2024.

Munich (Germany) 19th June----The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), officially announced the new world record efficiency of 30.1% for the commercial M6 size wafer-level silicon-perovskite tandem solar cell on June 19, 2024 at the 2024 Intersolar Europe in Munich, Germany.

As one of JA Solar emerging businesses in smart energy, JA Solar Energy Storage is a crucial part of the company's "one body, two wings " strategy. JA Solar Energy Storage is dedicated to becoming a leading global provider of energy storage products and solutions, creating a smart, low-carbon, and safe and efficient electric environment for all.
