Will pvpallet revolutionize the way we ship solar panels?

At least that's our approach. PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

What happened to wood pallets for solar panels?

While performing rural solar installations in Northern Missouri, Luke Phelps and his team at a regional solar design and installation company quickly realized the amount of waste, lost time, and expense associated with the single-use wood pallets on which their solar modules were shipped to installation sites.
