

Photovoltaic Panel Property Damage Insurance

Does solar panel insurance cover injuries or property damage?

Liability for injuries or property damage: Solar panel insurance typically includes liability coverage, protecting the policyholder if the solar panels cause injuries or damage to other people's property. This coverage is crucial for safeguarding against potential legal claims and associated expenses.

Does homeowners insurance cover solar panels?

Usually, homeowner's solar insurance packages cover all types of solar panels: monocrystalline, polycrystalline PV, or thin film solar panels. The insurance protects your solar rooftop against common risks, such as fire, hail, lightning, storm damage, or theft. The claim limit for solar panel coverage varies depending on the policy.

What is solar panel insurance?

Solar panel insurance is cover that protects you from the financial blow of your system getting stolen, damaged, or destroyed in numerous specific ways. If you successfully claim on solar panel insurance, you'll get a payout to help you to repair or replace your system.

How much does solar panel home insurance cost?

The annual cost of solar panel home insurance ranges from £118 to £152, which seems reasonable compared to the potential risks. Once you decide to install solar panels, inform your home insurer. Solar panels contribute to rebuilding your home's value, so it's important to list them in the insurance coverage.

Are solar panels included in buildings insurance?

Most providers include solar panels in buildings insurance, treating them as part of the fabric of your home, just like the doors, floors, and walls. However, these policies can be insufficiently comprehensive, unless you pay extra. This means you can often attain a better level of cover if you get solar panel insurance separately.

Should I tell my home insurance provider if I have solar panels?

At Sunsave, we strongly recommend that you tell your home insurance provider once you have solar panels, just like you would after any other significant modification to your property. It may increase how much you pay for insurance, as solar panels can raise the value of your home.

Homeowners insurance typically covers solar panel damage if it's a covered loss. Installing solar panels can increase your home's replacement value and increase rates. Canada offers some green energy incentives to help lower your installation costs, but don't forget to tell your insurer about your upgrades.
