

Photovoltaic bracket aluminum alloy frame manufacturer

What types of solar panels does Chalco stock?

Chalco stock various aluminum extruded solar panel frames and photovoltaic support aluminum alloys, with a variety of finishes to choose from. If the existing products are not suitable for your needs, we can also customize them according to customer requirements.

What is a solar aluminum frame?

It provided customized frames for over 12GW module manufacturers, accounting for nearly 10% of global market share. Solar aluminum frame is used to secure and seal solar modules, enhance the strength of the module, extend the service life and facilitate transportation and installation.

Does aluminum alloy need aging heat treatment for solar photovoltaic brackets?

The commonly used aluminum alloy series for solar photovoltaic brackets need to undergo aging heat treatment to achieve the required strength. China Aluminum strictly controls the solution treatment and aging heat treatment process to ensure the required strength of the aluminum alloy brackets.

Why do solar panels need anodized aluminum profiles?

Because the panel frame is exposed to the natural environment, it has high requirements for corrosion resistance. Chalco provides anodized aluminum profiles to further enhance the corrosion resistance of solar aluminum alloy frames.

Why should you choose AKCOME Solar frame company?

After 15 years of innovation and development, AKCOME solar frame business has won unanimous recognition from customers by virtue of its high-quality products, customized services, and strong R&D strength. The company maintains long-term and stable strategic cooperation with global high-quality photovoltaic module manufacturers.

What makes Chalco a good aluminum profile supplier?

As a professional aluminum profile supplier, Chalco operates the latest CNC drilling and processing center, which can provide accurate processing and cost-effective parts in a short cycle time. Because the panel frame is exposed to the natural environment, it has high requirements for corrosion resistance.
