Should you buy or rent a solar PV system?

You rent your roof and buy the discounted solar electricity rather than investing in a solar PV system of your own. A PPA offers an effective means to reaping the benefits of solar PV without having to take on the responsibilities of being a solar system owner-operator.

What happens when a solar PV contract ends?

When the contracts come to an end the customer can choose to remove the system, extend the PPA or purchase the energy system. On-site solar PV generation can take the form of either a large-scale rooftop installation on a commercial or industrial (C&I) site, or a ground-mount installation on adjacent land.

What is a solar PV PPA & how does it work?

A PPA offers an effective means to reaping the benefits of solar PV without having to take on the responsibilities of being a solar system owner-operator. A PPA also satisfies companies that prefer to reinvest their funds into core businesses activities.

How do I choose a solar PPA?

The journey to a Solar PPA begins with research and the selection of a reputable solar energy provider. Consider factors such as the provider's track record, customer reviews, and commitment to using high-quality components. 2. Site Assessment Once a provider is chosen, a thorough site assessment is conducted.
