

# Price of 200w photovoltaic panel

How much does a 200 watt solar panel cost?

Finally, there will be those who want the absolute best and are willing to pay any price for it. Prices for 200-watt solar panels range from about \$160 to \$520, with the highest-priced panels coming with long warranties and premium features. A 200-watt solar panel typically produces between 600 and 1,200 watt-hours (Wh) of solar energy per day.

What is the weight of a 200W solar panel?

Most 200W solar panels weigh between 11kg and 12kg. A 200W solar panel literally can produce 200 Watts electricity, and its size and quantity of solar cells determine the panel's thickness and weight. Most panels are around 35mm thick, although they may vary slightly.

What is a 200W MHD solar panel?

With the potential of delivering more than 1KW of power per day, the 200W MHD panel is designed for seriously power hungry applications where multiple panels maybe joined in series or parallel to create a significant solar array.
