What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Can you still rent a room if you can't afford solar?

Costs for solar power have plummeted since then. You can now get a 3.5 kW system for £7,026. Because of this, many installers have stopped offering the Rent-a-Roof scheme as it's no longer as lucrative to sell electricity back to the grid. Some installers do still offer Rent-a-Roof for people who can't afford solar panels.

Can you buy a house with rent-a-roof solar panels?

Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage provider could be unwilling to lend.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.
