

# Solar Power Emergency Radio

What is a solar-powered radio?

A solar-powered radio is a radio that includes a solar cell. This radio design lets you charge an internal battery directly from the sun. Most solar radios are smaller portable models with moderately sized solar cells. These smaller units are ideal for camping, survival, and emergencies. Some also come with other charging means.

Who needs a solar radio?

Everyone needs a solar radio for life-saving weather alerts and emergency information. We share the best solar radios on the market today.

What is the best emergency weather radio?

This solar radio looks like a miniature boombox straight out of the '90s. The Wayl Buzz4000 Emergency Weather radio is an excellent addition to any emergency cache. It's a full-featured AM/FM radio with 24/7 NOAA weather coverage. It's easily powered via USB, hand crank, solar, or AAA batteries.

Is solar a good option for an emergency radio?

But this is an emergency radio. Solar is more of a gimmick and puts little power to battery. Leaving out in the sun is not the best thing for a black plastic box and battery you shouldn't heat up. Charging from mains or small solar panel is good but not the fastest. But you then get hours of use.

What makes a FosPower emergency solar radio a good choice?

It has a few extra features that make it stand out from the crowd, including a reading light and an emergency alarm. The FosPower Emergency Solar Radio has a very functional look to it, with an orange and black design. You can charge it using the solar panel, via the hand crank or with a USB cable. You can also insert 3 AAA batteries.

Why should you buy a solar powered radio?

In any disaster situation you must be able to keep up to date with the latest information to ensure you are able to keep ahead of any trouble and the humble radio is your first choice, more precisely a solar powered radio, in keeping yourself informed and a prepper 'must have', whether at home or in your bug out bag.

An emergency radio is essential, but it also needs to last a long time with very little demands in terms of power consumption. It is preferred if there is some way to power the radio, this leads us to have a hand crank or a ...

The alarm tone feature of the emergency radio allows you to keep your emergency radio turned on 24/7 but in silent mode. The N.W.S. will send alerts in a special tone if a major emergency occurs. This unique tone will activate your emergency radio and cause it to turn on. There are also emergency radios which have alarm features for disabled ...
