

Solar panel roof review

Are in-roof solar panels better than frame-mounted solar panels?

In-roof solar panels are a neat, streamlined alternative to frame-mounted panels. Some people love the look of conventional frame-mounted solar PV panels, but others find them too big, bulky and heavy. Solar roof tiles are a beautiful alternative, but they're expensive and lack efficiency.

What is a solar roof?

The Solar Roof is a premium building-integrated photovoltaic (BIPV) product that takes the functionality of solar panels and integrates it into roof shingles. That's fancy speak for solar shingles--instead of traditional panels, the Solar Roof uses small solar panels designed to look and act like conventional shingles.

Are solar roof tiles a good option?

Unlike traditional solar panels, which sit on top of your roof, solar roof tiles are your roof, i.e. they completely replace your old tiles. This makes them a great option for homeowners looking to switch to solar without changing the appearance of their property, however they do also come with some considerable downsides.

Is Tesla's Solar Roof a good option?

While it doesn't quite look like a regular roof, Tesla's Solar Roof is definitely more discreet than traditional rooftop solar panels. If you're bothered by the look of solar panels on your roof (and are replacing your roof anyway), the Solar Roof is a solution. But it comes with a huge price tag.

Why are solar roof tiles so expensive?

However, the solar roof tile market in the UK is still fairly limited, and no way near as developed as the traditional solar panel market. This is partly why solar roof tiles are so much more expensive than normal solar panels. You can replace your roof tiles with solar panels, either using solar roof tiles or in-roof solar panels.

Is a solar roof a good idea?

If you're bothered by the look of solar panels on your roof (and are replacing your roof anyway), the Solar Roof is a solution. But it comes with a huge price tag. You can get the same solar power production for far less money, even when you factor in the cost of a new roof.

Unlike traditional solar panels, which sit on top of your roof, solar roof tiles are your roof, i.e. they completely replace your old tiles. This makes them a great option for homeowners looking to switch to solar without ...
