

Solar power street light price quote

What is a solar powered street light?

LED Lighting Solutions' 15W Solar Powered LED Street Light is a part of the Pro street lighting series. This product comes with an integrated solar panel, bright LED lights, integrated solar rechargeable battery and motion activation sensor, making this an eco-friendly and efficient product.

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.

Are solar street lights energy independent?

Become energy independent today with Sun-Lite. Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting.

How much do solar street lights cost?

This considers costs for components, installation, maintenance, and electricity bills. During the 15-year lifespan, traditional lampposts cost around \$12,000. Solar street lights with motion sensors or different models, only cost around \$5,000-\$6,000 for that same period, making them cheaper and more cost-efficient.

Are solar street lights the future of public lighting?

Solar street lights are a practical and convenient solution to replace old public lighting, and they are the future of public lighting. Solar street lights reduce costs in the long run, require low maintenance, can be installed in areas with no electrical infrastructure, and deliver many other benefits.

Do solar street lights work in the UK?

Our outdoor solar lights are manufactured using the latest high-performance LED chipped units and they can perform during both summer and winter. Solar street lamps can be programmed to consistently operate (from dusk until dawn) at any location in the UK so the area can remain safe while conserving energy. Do you need a specific bespoke design?
