Where are spark solar installations based?

National Coverage. Spectacular Spark solar installations across Great Britain. We cover the whole of mainland Great Britain from our 4 regional hubs located in Brighouse, Nottingham, Bristol and Kent. This gives us rapid installation capability and provides you with a local point of contact for peace of mind.

Who is spark solar?

A team of bright sparks redefining solar at home. The Spark vision is to take the standards of the residential solar industry and redefine them. Founded by a team with 3 decades of experience, our goal is prioritising both products and service and placing the customer at the forefront of our ethos. We don't offer off-the-shelf solar systems.

What is a spark solar kit?

Provide access to clean, safe and sustainable energy with the Spark Solar Kit. Every Solar Kit is part of a complete ecosystem consisting of the products, our PayGo integrated Spark portal and on-site support. Thanks to its modular nature, the ecosystem grows along with the development of the village and needs of our partners.

Are spark solar batteries worth it?

Spark are the only ones with the Duracell solar battery package. No upfront cost, they maintain everything, the app is superb at monitoring, the AI also knows the forecast weather so plans the power output, battery charging and back to grid power selling.

Who is the Managing Director of spark solar?

Our Managing Director Elliott leads from the front and is hands on within the business; we're glad his call added to your experience. We truly appreciate your recommendation to friends and family, and we're so happy you're pleased with your decision to go solar with Spark!

Is spark electrical a good company?

A great service from start to finish, from the survey there was no pressure selling just good information about solar energy and what we should expect from our system. Communication was good and the fitting team also good from their arrival to finish they were polite, hard working and professional. Would highly recommend Spark Electrical.
