Harvey goes solar! The application of solar options has become an integrated part of the South African energy revolution. The Harvey Solar bracket is suitable for the application of solar panels and geysers. Manufactured from high tensile steel, there is no need to pierce the Harvey Roof Tile and risk a leaking roof.

TripSolar solar brackets For solar brackets and suchlike products development, Xiamen Trip Solar Technology Co.,Ltd. spends months on devising, optimizing and testing. All our factory systems are created in-house by the very same people that operate, support and continue to improve them afterward. We are never satisfied with "good enough".

The tilting brackets also allow the panels to ride over any roof vents that are likely to be in the way. In an ideal world the very best configuration is to have the panels mounted along the centre of the roof in a row that way they do not shade each other, they look right and are easy to get by for those who work off the roof a lot.
