

# Tongwei 590 photovoltaic panel

How much power does a Tongwei solar panel produce?

Tongwei is offering six versions of its monofacial monocrystalline panels, with power outputs ranging from 400 W to 430 W and power conversion efficiencies between 20.1% and 21.7%. TW Solar (Tongwei) has unveiled new shingled solar panels for rooftop applications.

What is Tongwei solar?

Tongwei Solar is the world's largest manufacturer of crystalline silicon cells, with four bases in Hefei, Chengdu, Meishan, and Jintang. At present, the quality of Tongwei's solar cells is first class, with technical indicators reaching the top level in the world.

Who makes TW solar panels?

Product is no longer manufactured. Tongwei Co., Ltd. (TW Solar) Solar Panel Series TWMPF-60HS590-610W. Detailed profile including pictures, certification details and manufacturer PDF

When did Tongwei start manufacturing shingled modules?

The M3 Phase III project was put into operation in 2021, and the 210-series large-sized module was produced smoothly, marking the entry of the 6.0 era of modules. Tongwei entered the module business in 2013. In 2020, the G12 shingled module of 1.2GW was officially put into production, achieving a single module power output of up to 660W.

How much power does a TW Solar shingled module produce?

In early May 2018, TW Solar officially launched the shingled module, with a maximum power output of 421.9W, breaking the world record of PERC modules. In 2018, 1GW shingled modules were successfully put into production, with the highest power reaching 470W using the G1 cell package. A new 1.2GW production capacity was added in 2020.

Is Tongwei Group A 'China Top 500 enterprise'?

With a market value exceeding 300 billion RMB in 2022, Tongwei Group is a "China Top 500 Enterprise". The company has invested heavily in technology and new manufacturing capacity in recent years and is now arguably the world's largest vertically integrated solar company.
