

What is the name of the generator fan cover

What is a generator cover?

These generator covers are a type of canopy or tents that you can attach to any portable generator. No matter how large a portable generator you may have, from 200 watts to 10000 watts, a tent will cover it all from rain and fall. If you're setting the generator beside your home and don't have a separate house, get a storage shed.

What is a WGEN generator cover?

Scratch-proof and element-resistant, this custom high quality cover is made for long-lasting durability and protection. For use when transporting or storing your product, not while the generator is running. Ensure your WGen Series generator is cared for properly by the Westinghouse Synthetic Poly generator cover.
